

## step 4: SWOT Analysis

**S**

- Awareness content shared regularly on social media to promote healthy eating and build trust.
- Subscription plans with nutrition specialist support
- Delivery available across all Egyptian governorates

**W**

- Difficulty in scaling awareness and building customer trust, especially in early stages
- No offline physical stores which may limit reach for some customers.
- Limited product variety

**O**

- Using AI tools and models to improve services and grow faster.
- Many people suffer from poor nutrition and unhealthy eating habits, creating a strong demand for healthier solutions.

**T**

- Rising prices of raw materials
- High Competition
- Low trust in new online-only brands

**USP**

- الفائدة التي جسمك تحتاجها، في الطعام الذي يتدور عليه
